

VISHAL BHATT

Chief Information Security Officer | Cybersecurity Strategist | Compliance & Risk Leader

[Contact Me](#)[LinkedIn Profile](#)[GitHub](#)

Professional Summary

As an accomplished Information Security Leader with over 24 years of comprehensive experience, I have dedicated my career to building, securing, and managing enterprise IT infrastructure across diverse industries including finance, telecommunications, and IT services. My expertise lies in creating robust cybersecurity frameworks that not only protect organizational assets but also drive business value through strategic alignment with regulatory requirements.

Throughout my career, I have successfully led organizations through complex digital transformations while maintaining the highest standards of security compliance. My proven track record includes aligning cybersecurity programs with critical regulatory frameworks such as RBI, SEBI, DPDP, and ISO 27001, ensuring organizations remain compliant while achieving their business objectives.

I specialize in leading comprehensive VAPT initiatives, application security assessments, regulatory audits, and cloud transformation projects. My approach combines technical expertise with strategic thinking, enabling me to serve as a trusted advisor to executive leadership and board members on cybersecurity matters.

Key Achievements:

- 24+ years of enterprise security leadership
- Multi-industry expertise across finance & telecom
- Board-level cybersecurity representation
- Regulatory compliance specialist

Core Competencies & Expertise

Cybersecurity Strategy

- Enterprise security governance
- Risk-based security frameworks
- Strategic security planning
- Security program development

Regulatory Compliance

- RBI & SEBI compliance
- ISO 27001 implementation
- DPDP Act requirements
- Audit management

Technical Security

- VAPT & penetration testing
- Application security
- Infrastructure hardening
- Cloud security architecture

My comprehensive skill set spans across multiple domains of cybersecurity and IT management. I have extensive experience in developing and implementing information security policies that align with business objectives while maintaining regulatory compliance. My expertise in risk assessment and incident response has helped organizations proactively identify and mitigate potential security threats.

Data Loss Prevention

Implemented comprehensive DLP solutions and infrastructure hardening strategies that have significantly reduced security incidents across multiple organizations.

Identity & Access Management

Designed and deployed IAM frameworks that streamline user access while maintaining strict security controls and compliance requirements.

Cloud Infrastructure Security

Led cloud transformation initiatives across AWS, Azure, and GCP platforms, ensuring security-first approaches to digital transformation.

Key Projects & Achievements

Throughout my career, I have successfully led numerous high-impact projects that have delivered measurable business value while strengthening security posture. These initiatives demonstrate my ability to balance technical excellence with business requirements, ensuring that security enhancements drive operational efficiency and cost optimization.

ESXi 6.5 Server Deployment

Orchestrated rapid virtualization deployment completed in just 7 days, establishing a secure infrastructure foundation that enabled scalable growth and improved resource utilization across the enterprise.

Advanced Security Systems

Implemented biometric and iris security systems achieving 30% higher adoption rates and significantly reducing attendance fraud, while deploying WhatsApp Bot solutions that improved engagement by 30%.

1

2

3

4

Windows Server 2022 VM Rollout

Led comprehensive server modernization initiative that achieved 15% cost reduction and 20% efficiency improvement, while maintaining security compliance and operational continuity.

Cloud Infrastructure Optimization

Delivered Cloud Telephone SmartFlow solution providing 20% efficiency gains, and successfully migrated CKYC-UAT & Production servers with 20% performance improvement and 25% reduction in downtime.

Professional Experience

Senior IT Manager

Arman Financial Services Ltd. | 2023 – Present | Ahmedabad

In my current role, I serve as the senior cybersecurity executive responsible for defining and executing enterprise-wide cybersecurity policies aligned with ISO 27001 and RBI regulatory requirements. I lead comprehensive internal audits, penetration testing initiatives, and security control implementations for regulated financial infrastructure.

- Board-level IT risk representation in audit and compliance reviews
- Oversight of DLP, IAM, and cloud governance functions
- Trained 150+ staff members on cyber hygiene and phishing prevention
- Established robust security frameworks for financial services compliance

IT Manager

Entigrity Pvt. Ltd. | 2021 – 2024 | Ahmedabad

Spearheaded secure hybrid cloud migration and zero-trust strategy implementation for international operations. Successfully managed helpdesk systems and remote access security for globally distributed teams, ensuring seamless operations across multiple time zones.

- Achieved 40% vulnerability reduction through rigorous VAPT processes
- Led DevSecOps adoption and secure development practices
- Managed international team security protocols

IT Manager

KomalTex Fab Pvt. Ltd. | 2017 – 2021

Oversaw comprehensive IT policy creation, vendor security management, and implementation of core data security layers. Strengthened backup and recovery protocols, achieving 35% reduction in Recovery Time Objectives (RTO).

Education & Early Career Foundation

Educational Background

I earned my Bachelor of Science degree in Physics with Electronics specialization from R.G. Science College at Gujarat University in 2000. This technical foundation provided me with the analytical thinking and problem-solving skills that have been instrumental throughout my cybersecurity career.

The physics background has been particularly valuable in understanding the technical complexities of modern cybersecurity challenges, enabling me to approach security problems with scientific rigor and mathematical precision.

Early Career Development

Technical Head / Coordinator

IIHT Ltd. & Jetking Infotrain Ltd. | 2007 – 2017

During this formative decade, I managed multi-center infrastructure, IT training programs, and system security audits. This experience was crucial in developing my leadership skills and understanding of large-scale IT operations.

- Led ISO-compliant Quality Management System implementations
- Standardized network infrastructure across multiple centers
- Developed training curricula for IT security professionals

"The combination of physics education and hands-on IT experience provided the perfect foundation for understanding both the theoretical and practical aspects of cybersecurity."

Professional Certifications

My commitment to continuous learning and professional development is demonstrated through my extensive certification portfolio. These credentials validate my expertise across various domains of cybersecurity, artificial intelligence, and cloud technologies, ensuring I stay current with evolving industry standards and emerging threats.

1

Certified Information Systems Security Professional (CISSP)

Simplilearn | November 2024 | Credential ID: 7603385

The gold standard in cybersecurity certifications, validating my expertise in security and risk management, asset security, security architecture and engineering, and more.

2

Introduction to Artificial Intelligence

Simplilearn | January 2025 | Credential ID: 7745208

Staying ahead of emerging technologies, this certification demonstrates my understanding of AI applications in cybersecurity and enterprise risk management.

3

Introduction to Cybercrime

Simplilearn | December 2024 | Credential ID: 7723510

Specialized knowledge in cybercrime investigation and digital forensics, essential for modern security leadership roles.

4

Ethical Hacking for Beginners

Simplilearn | October 2024 | Credential ID: 4438439

Hands-on penetration testing skills that complement my VAPT leadership experience.

Google Cloud Certifications

Multiple GCP certifications including Architecting with Google Kubernetes Engine and Core Infrastructure, demonstrating cloud security expertise.

Compliance Specializations

Certified in compliance regulations and frameworks essential for financial services and enterprise security management.

Technical Skills & Expertise

My technical expertise spans across the entire cybersecurity ecosystem, from foundational security technologies to cutting-edge cloud platforms and emerging technologies. This comprehensive skill set enables me to architect and implement security solutions that are both robust and scalable.

Security Technologies

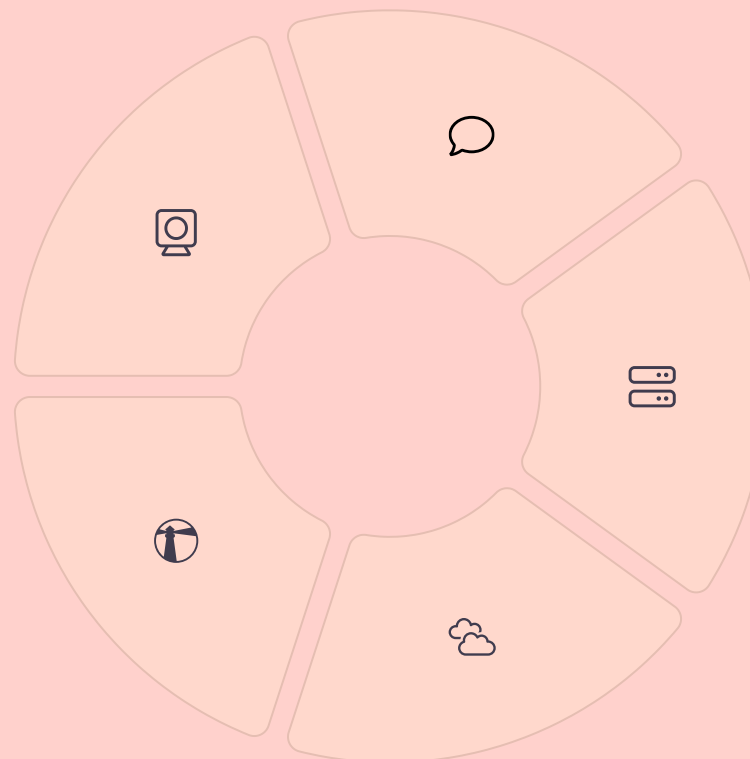

VAPT, DLP, IAM, SOC, Firewall Management, Endpoint Protection

- Advanced penetration testing methodologies
- Security Operations Center design and management
- Identity and access management frameworks

Monitoring & Tools

SIEM, SolarWinds, ManageEngine, Jira, GitHub, Nessus

- Security information and event management
- Vulnerability assessment tools
- DevSecOps toolchain integration

Compliance Frameworks

ISO 27001, RBI, SEBI, DPDP, IT Act

- Regulatory audit preparation and management
- Policy development and implementation
- Risk assessment and mitigation strategies

Infrastructure Technologies

ESXi, Active Directory, Azure AD, VPN Solutions

- Virtualization platform management
- Directory services and authentication
- Network security architecture

Cloud Platforms

AWS, Microsoft Azure, Google Cloud Platform

- Multi-cloud security architecture
- Cloud governance and compliance
- Hybrid cloud security strategies

Leadership Impact & Achievements

24+

Years of Experience

Over two decades of progressive leadership in enterprise cybersecurity and IT infrastructure management

150+

Staff Trained

Successfully conducted comprehensive cybersecurity awareness training programs improving organizational security posture

40%

Vulnerability Reduction

Achieved significant vulnerability reduction through rigorous VAPT processes and DevSecOps implementation

35%

RTO Improvement

Reduced Recovery Time Objectives through enhanced backup and disaster recovery protocols

My leadership philosophy centers on building high-performing teams while maintaining the highest standards of security excellence. Throughout my career, I have successfully managed cross-functional teams, led complex technical projects, and served as a trusted advisor to executive leadership on cybersecurity matters.

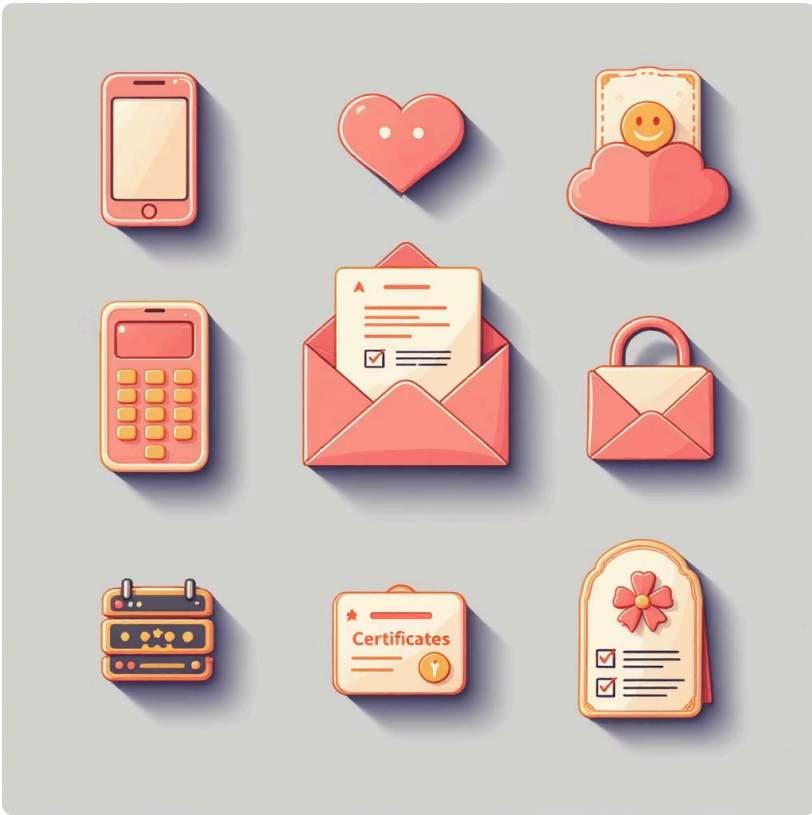

Key Leadership Qualities

- **Strategic Vision:** Ability to align cybersecurity initiatives with business objectives
- **Technical Expertise:** Deep understanding of enterprise security technologies
- **Regulatory Knowledge:** Comprehensive experience with compliance frameworks
- **Team Development:** Proven track record in building and mentoring security teams

Board-Level Communication

I excel at translating complex technical security concepts into business language that resonates with executive stakeholders. My experience in board-level presentations and audit committee participation has honed my ability to communicate risk and value effectively.

Contact Information

Let's Connect

I'm always interested in discussing cybersecurity challenges, leadership opportunities, and strategic security initiatives. Whether you're looking for a CISO to lead your security transformation or seeking expert consultation on compliance and risk management, I'd welcome the opportunity to explore how my experience can contribute to your organization's success.

📄 **Available for:** CISO positions, cybersecurity consulting, compliance advisory services, and strategic security leadership roles in enterprise organizations.
