Professional Summary

Information Security Leader with 24+ years of experience building, securing, and managing enterprise IT infrastructure across finance, telecom, and IT services sectors. My career has been dedicated to transforming cybersecurity from a reactive function into a strategic business enabler.

Throughout my tenure, I have successfully aligned cybersecurity programs with critical regulatory frameworks including RBI, SEBI, DPDP Act 2023, and ISO 27001 standards. My expertise encompasses leading comprehensive VAPT assessments, implementing robust application security measures, conducting regulatory audits, orchestrating cloud transformation initiatives, and delivering impactful security awareness training programs.

I am recognized for my ability to secure multi-site operations, effectively mitigate enterprise-level risks, and drive compliance excellence as a board-level representative. My leadership philosophy centers on building resilient security cultures while maintaining operational efficiency and business continuity.

Key Achievements

- 24+ years cybersecurity leadership
- Multi-industry expertise
- Board-level risk representation
- Regulatory compliance excellence
- Cloud transformation leadership

Core Competencies

Strategic Leadership

- Cybersecurity Strategy & Governance
- Information Security Policy Implementation
- Leadership & Cross-Functional Team Management
- IT Budget & Vendor Management

Compliance & Risk

- RBI, SEBI, DPDP, ISO 27001 Compliance
- Risk Assessment & Incident Response
- Disaster Recovery & Business Continuity Planning
- Security Awareness & Training Programs

Technical Security

- Application Security & VAPT
- Data Loss Prevention (DLP) & Infrastructure Hardening
- Identity & Access Management (IAM)
- Cloud Infrastructure Security (AWS, Azure)

My comprehensive skill set spans strategic cybersecurity leadership, regulatory compliance mastery, and hands-on technical implementation. I excel at translating complex security requirements into actionable business strategies while maintaining the technical depth necessary to guide implementation teams effectively.

Professional Experience

Senior IT Manager

Arman Financial Services Ltd. | 2023 – Present

Leading enterprise-wide cybersecurity transformation at this regulated financial services organization. I define and execute comprehensive cybersecurity policies aligned with ISO 27001 standards and RBI guidelines, ensuring our security posture meets the stringent requirements of the financial services sector.

- Spearhead internal audits, penetration testing, and security controls for regulated infrastructure
- Represent IT risk management at board-level audit and compliance reviews
- Oversee critical DLP, IAM, and cloud governance functions
- Successfully trained 150+ staff members on cyber hygiene and phishing prevention

IT Manager

KomalTex Fab Pvt. Ltd. | 2017 – 2021

Established comprehensive IT governance framework and security protocols for this manufacturing organization. I focused on creating robust IT policies, managing vendor security relationships, and implementing multiple layers of data protection to safeguard critical business information.

- Developed comprehensive IT policy framework and vendor security protocols
- Implemented multi-layered core data security architecture
- Enhanced backup and recovery protocols, achieving 35% RTO reduction
- Established incident response procedures and disaster recovery capabilities

1

2

IT Manager

Entegrity Pvt. Ltd. | 2021 – 2024

Orchestrated secure hybrid cloud migration strategies and implemented zero-trust security frameworks for this global IT services provider. My role involved managing complex helpdesk systems and implementing robust remote access security protocols for international teams spanning multiple time zones.

- Led comprehensive secure hybrid cloud migration initiatives
- Implemented zero-trust strategy across distributed workforce
- Achieved 40% vulnerability reduction through rigorous VAPT processes
- Successfully integrated DevSecOps practices into development lifecycle

3

Key Projects & Achievements

7

Days

ESXi 6.5 Server Deployment completed, enabling secure virtualized infrastructure foundation

15%

Cost Reduction

Windows Server 2022 VM Rollout delivered significant cost savings with 20% efficiency improvement

30%

Resolution Rate

Helpdesk Server Implementation achieved substantial increase in first-call resolution

20%

Sales Boost

CRM Server Migration enhanced productivity with 15% customer satisfaction improvement

25%

Downtime Reduction

CKYC-UAT & Production Server optimization delivered improved performance and reliability

30%

Engagement Growth

WhatsApp Bot Project enhanced customer interaction with 20% faster response times

These strategic technology initiatives demonstrate my ability to deliver measurable business value while maintaining security excellence. Each project was executed with a focus on enhancing operational efficiency, reducing costs, and improving user experience while adhering to strict security protocols and compliance requirements.

Technical Expertise

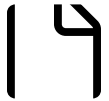

Security Technologies

Comprehensive expertise in VAPT methodologies, Data Loss Prevention (DLP) systems, Identity & Access Management (IAM) solutions, Security Operations Center (SOC) management, next-generation firewall configuration, and advanced endpoint protection platforms. My hands-on experience spans vulnerability assessment tools like Nessus, penetration testing frameworks, and security incident response protocols.

Cloud & Infrastructure

Deep proficiency in multi-cloud environments including AWS, Microsoft Azure, and Google Cloud Platform (GCP). Experienced in ESXi virtualization, Active Directory administration, Azure AD integration, VPN architecture, and hybrid cloud security configurations. Skilled in designing secure, scalable infrastructure solutions that support business continuity and disaster recovery requirements.

Compliance Frameworks

Extensive knowledge of regulatory compliance requirements including ISO 27001 information security management, RBI cybersecurity guidelines for financial institutions, SEBI IT governance norms, DPDP Act 2023 data protection regulations, and IT Act compliance. Proven track record in conducting compliance audits, gap assessments, and remediation planning.

Monitoring & Tools

Advanced capabilities in SIEM solutions, SolarWinds network monitoring, ManageEngine IT service management, Jira project management, GitHub and Bitbucket code repositories, Zabbix infrastructure monitoring, and comprehensive security assessment tools. Expert in creating automated monitoring workflows and incident response procedures.

Certifications & Continuous Learning

Recent Certifications

Introduction to Artificial Intelligence

Simplilearn | January 2025

Industry Impact & Leadership Philosophy

Strategic Vision

I believe cybersecurity should be a business enabler, not a roadblock. My approach focuses on aligning security initiatives with organizational objectives, ensuring that protective measures enhance rather than hinder business operations. This philosophy has consistently delivered measurable ROI while maintaining robust security postures.

Team Development

Building high-performing security teams requires a combination of technical expertise and leadership acumen. I invest heavily in team development, cross-functional collaboration, and knowledge sharing. My training programs have educated over 150+ professionals on cybersecurity best practices and threat awareness.

Innovation Focus

Staying ahead of evolving threats requires continuous innovation and adaptation. I actively pursue emerging technologies like AI-driven security solutions, zero-trust architectures, and cloud-native security tools. My recent certifications in artificial intelligence and advanced threat detection reflect this commitment to innovation.

My leadership approach combines strategic thinking with hands-on technical expertise, enabling me to bridge the gap between C-suite expectations and technical implementation. I am passionate about transforming cybersecurity from a cost center into a competitive advantage that drives business growth and customer trust.

Contact Information

Get in Touch

I am always interested in discussing cybersecurity challenges, strategic initiatives, and leadership opportunities. Whether you're looking for a seasoned CISO to transform your security posture or seeking expert guidance on compliance and risk management, I bring the experience and expertise to drive meaningful results.

Ready to Transform Your Cybersecurity Strategy?

Strategic Leadership

As a seasoned Chief Information Security Officer with 24+ years of experience, I bring proven expertise in transforming cybersecurity from a reactive function into a strategic business enabler. My track record includes successful regulatory compliance initiatives, enterprise-wide security transformations, and board-level risk management representation across multiple industries.

Measurable Results

My project portfolio demonstrates consistent delivery of measurable business value: 40% vulnerability reduction, 35% RTO improvement, 30% efficiency gains, and successful training of 150+ professionals. These achievements reflect my ability to balance security excellence with operational efficiency and cost optimization.

Future-Ready Expertise

With recent certifications in AI, advanced cybersecurity frameworks, and cloud technologies, I stay at the forefront of emerging threats and solutions. My expertise spans traditional infrastructure security, modern cloud architectures, and next-generation technologies like zero-trust frameworks and AI-driven security operations.

Whether you're seeking a strategic cybersecurity leader to guide your organization through digital transformation, ensure regulatory compliance, or build a world-class security program, I'm ready to bring my expertise to your team. Let's discuss how we can strengthen your security posture while driving business growth and innovation.
